

Glaciers of Patagonia

ARGENTINA • CHILE

The Offer

Striking mountains, bright blue icebergs breaking off from glaciers and golden grasslands (pampas) that are home to unique wildlife make Patagonia a special place to visit: travel to the end of the world to experience a destination that is unfamiliar, unparalleled and exceptional.

Start your trip in Santiago. The capital of Chile is nestled next to the Andes Mountains and offers old-fashioned neighbourhoods where Spanish Colonial influences mix with indigenous flavours, boasting unique flavours and welcoming culture.

Fly into quaint Puerto Natales, the hub for those exploring the famed Torres del Paine National Park, in Chile's Patagonia region. Some of its most iconic sites are the three granite towers from which the park takes its name and the horn-shaped peaks called Cuernos del Paine. You may see condors, rheas, pumas, guanacos, red foxes and other Patagonian wildlife. Next head to Argentina by land to El Calafate village, home to the massive Perito Moreno Glacier, whose ever-shifting icy landscape is one of the most visited glaciers in the world. Standing before its 70-m high electric blue face and watching 100-tonne blocks of ice crumble and crash into the waters below is humbling. The Perito Moreno

Glacier is more than 30 km long and 5 km wide at the face. From Perito Moreno, cross the Boca del Diablo to the Upsala Canal and navigate between large icebergs that emerge from the front of the Upsala Glacier.

For those looking for a more exhilarating experience, optional tours will add to the adventure: from a safari boat in Argentino Lake, a Nativo Experience in lakes and caves near El Calafate, or choose to add a trek to the Las Torres Base viewpoint to a day tour to explore El Chalten, this package offers opportunities for everyone to tailor their time in Patagonia.

From El Calafate, fly to Buenos Aires for a half-day city tour and an Argentine Experience involving wine, steak, empanadas, sweets, and Mate tea. Enjoy a tango dinner and show and spend time getting to know this fantastic city before flying back home.

Want more? Add a 7-day extension and discover the best of the Inca empire with time in Cusco, Sacred Valley and Machu Picchu, with day trekking available for those wanting to elevate their Inca adventure. Also, expand your stay in South America by taking up Arrive Early or Stay Behind packages.

The Argentino Lake is the third biggest lake in South America. Surrounded by mountains and fed by giant glaciers, this lake astonishes local and foreign visitors with its immensity and special colour. It was exactly this light blue colour, the mountains covered in white and the light blue sky that motivated Francisco P. Moreno to name it "Argentino". This is a 3-hour tour that offers an anthropological and historical approach to the passage of man in the El Calafate area, rediscovering the experiences of the first expeditions ventured into the unknown by the Santa Cruz River. The tour focuses on the history of the early explorers' contact with the Tehuelches (native Indians), crossing cliffs overlooking the lake on 4x4 vehicles and marvelling at views of the environment. Enjoy dinner inside a cave while enjoying a unique experience in a totally natural setting. Please see current pricing in Important Information.

Dinner Menu:

- *Homemade soup*
- *Lamb stew with vegetables on country bread*
- *Chocolate mousse*
- *Wine, water or juice*

Please note: A vegetarian menu is available.

Day 8 El Calafate - Perito Moreno Glacier, Los Glaciares National Park

Total Duration: 8 hours

Walking Distance: The catwalks are divided into 3 circuits. Guests can stop, rest and agree on a meeting point, a tour does not necessarily mean walking the entire balcony's path.

- *Central Balconies: 600 metres (including 1st balcony, 2nd balcony and Northern balcony)*
- *Lower Balcony: 1,100 metres (including Lower balcony)*
- *Coast's Balcony: 1.117 metres (from the parking area up to the Northern balcony)*

Recommended Packing List: Warm clothes, raincoat jacket, waterproof trousers, hiking boots, sunglasses, sunscreen, gloves, hat and backpack.

Today you are heading to Perito Moreno Glacier in the Los Glaciares National Park. On the way you will be treated to a history of the Argentino Lake on the right and its shallowest part, Redonda Bay (Rounded Bay), populated by a large variety of birds, like black-necked swans, flamingos, steamer ducks, coots and Magellan geese surrounded by yellow fields of "coirones", a typical grass in Patagonia. Continuing on you will be treated to the timberline formed by "high deciduous beech" trees, white oak trees, "low deciduous beech" trees and some cinnamon trees. Flowers of several colours can be appreciated too, the "fire bush", which stands out the most due to its deep red colour. All of them are typical Andean-Patagonian Forest species.

Perito Moreno Glacier is one of the most famous and awe-inspiring of Argentina's natural wonders. Standing before its 70-metre-high electric blue face and watching 100-tonne blocks

of ice crumble and crash into the waters below is truly humbling. The Perito Moreno Glacier is over 30 kilometres in length and 5 kilometres wide at the face.

Scattered with boardwalks and viewing platforms along the glacier perimeter, you'll get close enough to the action to hear ruptures of ice collapsing into the water. Whilst there are many glaciers in Argentina, Perito Moreno Glacier is by far the most spectacular and unique. The route of the visit will be closely related to weather conditions and participants' willingness and physical conditions; the available time to walk through and visit the catwalks is 1 to 3 hours. The excursion is usually organised as a full-day program. The visit makes it possible to have different viewpoints of the glacier and enough time for lunch (boxed lunch provided).

Box lunch menu choices will be asked to be picked at least 3 days in advance.

Optional Tour: Safari Boat at Perito Moreno Glacier

This tour is a voyage of one hour by the Rico branch of Argentino Lake in order to appreciate the majestic south wall of the Perito Moreno Glacier. This glacier ice wall is about 60 metres high and 100 metres below lake level. The boat comes about 200m from where the glacier touches the Magallanes Peninsula and then goes at length (about 3km) south allowing you to enjoy the landslides that occur daily and the magical beauty of its seracs, cracks and intense blue. This service is carried out with the boat Yagan, with a capacity for 110 passengers. Boarding takes place

at the port on the Bay "Under the Shadow", about 7 kilometres before the glacier viewpoint. Please see current pricing in Important Information.

Walking through dense beech forests, stop to admire various waterfalls and hanging glaciers. After about 3 hours, start to ascend a steep moraine towards the highest observation point at 900 m above sea level. The Argentino Lake is the third biggest lake in South America. It was exactly this light blue colour, the mountains covered in white and the light blue sky that motivated Francisco P. Moreno to name it "Argentino". This is a 3-hour tour that offers an anthropological and historical approach to the passage of man in the El Calafate area, rediscovering the experiences of the first expeditions ventured into the unknown by the Santa Cruz River. The tour focuses on the history of the early explorers' contact with the Tehuelches (native Indians), crossing cliffs overlooking the lake on 4x4 vehicles and marvelling at views of the environment. Enjoy dinner inside a cave while enjoying a unique experience in a totally natural setting. Please see current pricing in Important Information.

Continuing on you will be treated to the timberline formed by "high deciduous beech" trees, white oak trees, "low deciduous beech" trees and some cinnamon trees. Flowers of several colours can be appreciated too, the "fire bush", which stands out the most due to its deep red colour. All of them are typical Andean-Patagonian Forest species.

Itinerary 2 - Machu Picchu Extension

Perito Moreno Glacier is one of the most famous and awe-inspiring of Argentina's natural wonders. Standing before its 70-metre-high electric blue face and watching 100-tonne blocks of ice crumble and crash into the waters below is truly humbling. The Perito Moreno Glacier is over 30 kilometres in length and 5 kilometres wide at the face.

Scattered with boardwalks and viewing platforms along the glacier perimeter, you'll get close enough to the action to hear ruptures of ice collapsing into the water. Whilst there are many glaciers in Argentina, Perito Moreno Glacier is by far the most spectacular and unique. The route of the visit will be closely related to weather conditions and participants' willingness and physical conditions; the available time to walk through and visit the catwalks is 1 to 3 hours. The excursion is usually organised as a full-day program. The visit makes it possible to have different viewpoints of the glacier and enough time for lunch (boxed lunch provided).

Box lunch menu choices will be asked to be picked at least 3 days in advance.

Optional Tour: Safari Boat at Perito Moreno Glacier

This tour is a voyage of one hour by the Rico branch of Argentino Lake in order to appreciate the majestic south wall of the Perito Moreno Glacier. This glacier ice wall is about 60 metres high and 100 metres below lake level. The boat comes about 200m from where the glacier touches the Magallanes Peninsula and then goes at length (about 3km) south allowing you to enjoy the landslides that occur daily and the magical beauty of its seracs, cracks and intense blue. This service is carried out with the boat

Yagan, with a capacity for 110 passengers. Boarding takes place at the port on the Bay "Under the Shadow", about 7 kilometres before the glacier viewpoint. Please see current pricing in Important Information.

From the hotel, head to Puerto Bandera Port where you'll board the boat, travelling up the North Arm of Lake Argentino. Cross the Boca del Diablo to the Upsala Canal and navigate between large icebergs that emerge from the front of the Upsala Glacier. Sail through the Spegazzini Channel and moments later, enjoy the first view of the Dry Glacier. Continue sailing to the front of the Spegazzini Glacier to contemplate the Heim Sur and Peineta glaciers.

This tour is of medium difficulty trekking through a wooded road, with natural viewpoints, full of incredible views that end at the landing point. The forest trail covers 300 metres from the point of disembarking up to the Spegazzini Shelter. During this walk, there will be stops in different stations (glaciology - history - flora and fauna) and have access to different viewpoints. This is an easy path, which offers no complexity. Little is known about what Wiñay Wayna was originally built for, however there are theories that it was built as a spiritual destination or resting place before reaching Machu Picchu, where elders and royalty would cleanse themselves in the baths. Others believe that the site functioned as a kind of administrative centre to keep track of the amount of produce stored on-site. Other Important Information

TOUR GUIDE VS. TOUR LEADER

Tour Guide

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and, if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when required to enhance the experience of the destination featured.

CLIMATE & AVERAGE TEMPERATURES

Patagonia

October - April

The weather in Patagonia is mostly mild, between lows of 4°C (39.2°F) and highs of 18°C (64.4°F). In their summer months (December to February), this is the height of their growth season, so you will definitely see landscapes full of greenery. There will be warmer days and cool nights and potentially strong winds and rains. This is generally the peak tourist season. Argentina can be hot and humid during

their summer months with potential rains. You can expect temperatures in Argentina to range from 19°C to 30°C. Southern Chile experiences temperatures of 12°C to 25°C.

The general rainy season in Patagonia is during the months of April and May, during the autumn and potentially from November to January, with less intensity. Rainy season in Chile ranges from May to August with averages of 72-90mm of rain per month, whilst in Argentina it ranges from October to March with averages of 100mm of rain per month.

Cusco, Peru

Cusco has a subtropical highland climate due to its elevation (3500m above sea level). It is generally dry and temperate, with two defined seasons. The dry season lasts from May to August, with abundant sunshine and occasional nighttime freezes. July is the coldest month with an average of 9.7°C. The wet season lasts from December to March, with night frost less common. November averages 13.3°C. Temperatures usually range from 0.2°C to 20.9°C.

FLIGHTS

Seat Selection & Frequent Flyer Points

We do not arrange seat selection. It is essential to highlight that some airlines do not allow pre-selected seats. We strongly suggest you contact the airline directly with seating allocation requirements and/or arrive at the airport earlier to arrange your seating. While we do not add frequent flyer member details to bookings, you can do this directly with the airline once you have your flight information.

Passport Validity

Customers must provide valid passport details either at the time of purchase or no later than 90 days before the departure date. Failure to do so may result in the cancellation of the booking. Customers will be responsible for any costs and fees incurred in this instance.

COACH TOUR

Important Information

Meals

For meals not included, the tour leader (when available) will offer assistance with reservations, suggestions and directions to local restaurants. It is your responsibility to notify us of any dietary requests/requirements.

Please note: We will do our best to meet your requests/requirements; however, we cannot guarantee that we will always be able to.

Luggage

You will be responsible for all your personal belongings whilst on tour. You must carry your own luggage from the vehicle to the hotel room and back to the vehicle. The driver will assist with the uploading and unloading of bags from the vehicle.

OTHER

Mobility

If you require wheelchair access please contact our friendly sales and service team to inquire on your behalf.

Fitness Level Required

Adventure (and spontaneity) create some of the best travel memories. Bear in mind, your home schedules and timings might not be adhered to on tour - it's all part of the fun!

A moderate level of fitness will be required. Expect a moderate pace of touring with a focus on guided tours that may include full days with extended activity, guided city tours or nature walks. You will require a general level of fitness for unassisted navigation of stairs and inclines, longer distances with possible periods of standing when visiting sites, walking on sloping, uneven ground or elevations. You will be responsible for your own luggage and have the ability to board all modes of transport without assistance.

Please note:

- *Many areas may be inaccessible to wheelchairs or mobility scooters, where the unassisted use of personal walking sticks and other aids may be required. Although some assistance may be available, every traveller should be self-reliant during all aspects of their travel.*
- *It is expected that every traveller must be self-reliant and able to undertake all aspects of their own travel. Please speak to your booking agent about your personal circumstances and any assistance requirements to ensure this tour is right for you.*
- *If you have any concerns, please consult your healthcare provider prior to purchase/travel.*

Express Inca Trail Trek (Optional Activity): Active

Active/demanding are more strenuous activities, suitable for a good fitness level and for guests who exercise regularly. More fast-paced activities and walking on uneven surfaces. A high fitness level is required to undertake activities, which include high-altitude trekking for anywhere between four to seven hours per day for an extended number of days. Recommended for active travellers with some previous trekking experience.

High Altitude Sickness

Altitude sickness can occur at high elevations when the body receives less oxygen. It can affect anyone, regardless of age or fitness, with symptoms such as headache, nausea, dizziness, fatigue and shortness of breath.

Tips to help prevent altitude sickness:

- Stay well hydrated and eat light, high-carbohydrate meals.
- Avoid overexertion during the first 24–48 hours at high altitude.
- Limit alcohol and avoid smoking.
- Consult your healthcare professional about preventive medications or your suitability for travel to high-altitude areas. Local tour providers are trained in first aid, including high-altitude care, and have oxygen available for guests if needed. Medications are also readily available in

Cusco.

Please note: Inoculations may be required to enter the country visited, along with re-entry into Australia after your visit. It is your responsibility to consult with your travel doctor for up-to-date medical travel information well before departure.

Yellow Fever

A valid international certificate of vaccination against Yellow Fever is required in many countries. You may need to present this on arrival at the airport or border crossing. Some countries will refuse entry if you are unable to present your certificate. It's also common for your home country to request a Yellow Fever certificate upon arrival. You must check with your doctor well before leaving home about the Yellow Fever requirements for the countries you'll be visiting.

Gratuities/Tipping

Land

Gratuities (tips) are not included for the services of the tour leader (when available) and driver throughout the tour. The recommended tip is \$10-15 USD per person per day. This covers the guide/leader and the driver and will be collected on tour.

Please note: Tipping for services provided is always a matter of personal discretion; however, please be aware that many locals consider tipping part of their normal remuneration, and they may approach you for payment; there's no need to be intimidated by the request.

Sightseeing

Please note: If entry to a site is affected by changes in operating hours or public holiday closures, your itinerary, where possible, may be adjusted, or a similar activity will be offered in its place (subject to availability).

Shopping

Shopping overseas can be a daunting and confusing experience, especially when there is a language barrier. Please be very cautious when foreign currencies and

Important Information

prices are involved. If paying by credit card, please pay close attention to the amount you are being charged and keep all your receipts. Do not make any purchases you are not comfortable with or feel pressured into. If you are uncertain or need assistance with the language barrier, please seek assistance from your Tour Guide/Leader. Please refer to our [Terms and Conditions](#) regarding shopping for further information.

Visas

New Zealand (Transiting)

If you do not hold an Australian passport you may be required to obtain a transit visa. Some flight routes make a stop in New Zealand and you may be required to obtain a transit visa to board your flight. It is the passengers' sole responsibility to seek advice on the correct visa and take appropriate action to ensure they have the correct visa prior to departure. Failure to do so may result in denied boarding and or refusal of entry to the country by the local authorities and immigration department. We strongly advise you to carefully review your flight tickets and then contact your respective consulate or a visa agency to confirm the necessary visa regulations and acceptable forms of personal identification for your transit.

Chile

As of 17th September 2025 tourist visas for Chile are not required if travelling on an Australian Passport. You can stay in Chile for up to 90 days without a visa. If you're unsure whether you need a visa, [contact the nearest embassy or consulate of Chile](#).

Argentina

As a tourist, you can stay for up to 90 days without a visa, but you'll need:

- A return or onward ticket
- A valid passport
- Travel/medical insurance

Please Note: Effective immediately, all international travellers to Argentina must hold valid travel insurance with medical coverage.

This insurance may be requested and

verified upon arrival in the country. Argentina's public healthcare system will no longer provide free medical services to foreign nationals. It is therefore essential that you obtain appropriate insurance before your departure.

Peru

Australian tourists don't need a visa. You can get a permit to stay for up to 3 months when you arrive. If you overstay your permit, you'll have to pay a fine before leaving the country. In other situations, you'll need to apply for a visa through an embassy or consulate of Peru. Entry and exit conditions can change at short notice. You can contact the nearest embassy or consulate of Peru for the latest details. They'll tell you about visas, currency, customs and other travel requirements.

Important:

- *Please start arranging your visa three weeks before departure to account for any delays due to consulate operating hours.*
- *Visa rules may have changed since Covid-19. Some countries and airlines may require you to obtain an additional visa before arrival. Please check with the nearest embassy, consulate or immigration department of the destination you're entering.*

Please note:

- *Passengers who are not Australian citizens must also check with the respective consulate or visa agency to determine what their visa requirements are and what personal identification is required.*
- *It is also important to note that some areas of employment, such as journalism, government authorities and charity organisations, may have additional restrictions in applying for visas. This may, in turn, affect the type of application required.*

Travel Insurance

Embarking on your next trip is exciting, and while you hope the unexpected does not happen, it is best to be prepared. We strongly recommend you take out travel insurance when making your booking.

Whether it's a potential medical emergency, a flight cancellation, a delayed suitcase, or an unforeseen event, it's important to ensure you're adequately protected. For more information or advice visit <https://www.tripadeal.com.au/travel-insurance>
