15-DAY CRUISE PACKAGE | HIGHLIGHTS OF ANTARCTICA

The Itinerary

Day 1 Australia (or New Zealand) - Buenos Aires, Argentina

Bon voyage! Today, at the appropriate time, make your own way to the airport to board your flight to Buenos Aires, the first stop on your journey to Antarctica!

Welcome to beautiful Argentina. Upon arrival, you will be met and transferred to your centrally located hotel.

Please note: Due to flight times and scheduling some customers may be required to depart Day 0. Flight times will be confirmed on your final documentation which you will receive at least 4-6 weeks prior to departure.

Overnight: Hotel Grand Brizo, Buenos Aires, Argentina (or similar)

Meals included: In-Flight

Day 2 Buenos Aires - Ushuaia - Embark 10-Night Antarctic Cruise

This morning be transferred from the hotel to the airport for your early morning flight to Ushuaia where a hybrid-powered state-of-the-art HX Expeditions ship awaits. This port city competes with Chilean Puerto Williams for the coveted title of the southernmost city in the world. The Martial Glacier sits north of the city, creating an impressive mountain backdrop for what many refer to as the 'end of the world'.

After a mandatory health and safety meeting on board the ship, kick off your journey with a welcome dinner hosted by the Expedition Team. You can then spend some time getting to know the ship that will be home for the next eleven days.

Overnight: HX Expeditions MS Fridtjof Nansen or MS Roald Amundsen

Meals included: Breakfast; Lunch; Dinner

Day 3 Drake Passage

The ship will cross the infamous Drake Passage, named after the English sea captain and privateer Sir Francis Drake who discovered it by chance in 1578. Since there is no landmass at this latitude, wind and water roam freely, making it hard for some ships to sail here. But don't worry, even the 'Drake Shake' isn't a big deal for HX Expeditions ultra modern ships.

It takes two days to cross the roughly 1000-km-wide Drake Passage, which gives you time to get ready for your Antarctic adventure. The Expedition Team will start their lecture programme in the on board Science Centre, drawing on decades of experience in Antarctica to teach you how to make your visit as safe and as sustainable as possible. As per IAATO guidelines, once you begin venturing on land you will all wear sterilised rubber boots when ashore and ensure to vacuum your clothing beforehand to remove any possible foreign contaminants. You will also learn about the various hands-on 'Citizen Science' projects that you can get involved in, such as collecting samples and data or whale counting and cloud observation. All of which feed into live research and current science.

The stylish HX Expeditions ship is waiting to be explored, quite literally. Work out in the indoor or outdoor gym or order a spa treatment in the Wellness Area. There are also three superb restaurants on board where you can enjoy delicious meals that are a treat for your eyes and your taste buds. But even with all these mod cons, don't forget to head out on deck from time to

Day 5 Antarctica

Land ho! Welcome to Antarctica. For the next 5 days, surrounded by icy waters, looming glaciers and icebergs as big as cathedrals could make you feel as though you've landed on another planet. Antarctica is as magnificent as it is mesmerising and massive. You may need to take a moment once in a while in order to take it all in. Although, the awe-inspired silence will inevitably be broken by the first signs of wildlife. It is not uncommon on board when penguins, whales or seals appear, that the serene silence will be broken by loud enthusiastic cheers erupting spontaneously all across the ship.

Just as the ice-scapes of Antarctica change through its seasons, so does its wildlife. In late spring from October to November, there will be much more snow, making the landscapes seem even more surreal and pristine. This forms the backdrop of penguin courting and nest building. Whales are still few and far between during this time, most of them still on their way and begin to

arrive in greater numbers by December and January. Arrival of more whales marks the height of summer which is also when the first penguin chicks hatch. Watching the clumsy clumps of feathers playing in the snow is always a charming sight. February and March are the peak of whale-watching opportunities, when they are lured to the Antarctic Seas by vast amounts of krill.

Once you arrive, the Expedition Team will seize every chance they can, to take you ice-cruising and on Zodiac landings to get closer to the impressive scenery and wildlife. Spotting penguins from the ship is already an experience, which becomes even more wondrous when you go ashore to see them up close and personal. It's the same if a seal or whale suddenly appears next to you when cruising in the smaller explorer boats or when kayaking as part of an optional activity. Needless to say, keep your camera close at all times. To enhance the feeling of discovery, the Expedition Team will talk expertly about fascinating subjects like the history of the frozen continent, the biology of local wildlife, and the intriguing aspects of glaciology.

Overnight: HX Expeditions MS Fridtjof Nansen or MS Roald Amundsen

Meals included: Breakfast; Lunch; Dinner

15-DAY CRUISE PACKAGE | HIGHLIGHTS OF ANTARCTICA

The Itinerary

In the true style of the early explorers, we venture out at night for a once in a lifetime experience as we go camping in the Antarctic night. Although Amundsen, Scott and Nordenskjold had different equipment, they used the best gear available at the time. So do we. This activity features top of the line camping equipment that meets Antarctic standards for camping on snow. This activity may have limited availability. In the event that space becomes limited, participants will be chosen via a lottery based lucky draw.

Imagine yourself sleeping under the Antarctic sky with little more than the thin wall of a tent separating you from the elements. In the true style of the early explorers we venture out at night for this once in a lifetime chance to feel like a polar explorer. Although Amundsen, Scott and Nordenskjold had different equipment, they used the best gear available at the time. So do we. This activity features top of the line camping equipment that meets Antarctic standards for camping on snow.

The adventure starts with a pre-camp briefing by the experienced expedition staff who accompany us on the activity. We set up our camp after dinner with guests participating from beginning to end. If you have never pitched a tent before, this is your chance. After the camp is set up you can either go to bed or sit outside and marvel at the stillness, or listen to penguins in the distance. Depending on the landing site, we may take short walks to nearby viewpoints and visit penguin colonies in the bright Antarctic night. If you like, wake up early, climb out of your tent and watch the sunrise.

In the morning hours we take down the camp and boats pick us up for the return trip to the ship. Back on board, we enjoy a special breakfast and debrief the experience. As an IAATO

member, HX Expeditions adheres to all guidelines associated with onshore overnight stays in Antarctica. We leave nothing behind and remove all traces of our presence to protect wildlife and the fragile environment. Join us for this unique and unforgettable experience!

Optional Activity: Snowshoeing in Antarctica

Duration: 2 hours

Feel the spirit of the early Antarctic explorers. Join us for a walk on the wild side with snowshoes. Climb hills, cross glittering white plains, and untouched landscape. Here few humans have set foot. The experienced Expedition Team will guide you to places with awe-inspiring views. You might observe penguin colonies or even see whales swimming in the sea from above.

Optional Activity: Kayaking Adventure in Antarctica

Duration: 3 hours

Merge with nature on an exceptional Antarctic sea kayaking adventure. Explore nature and wildlife up-close as we kayak along awe-inspiring icebergs and glaciers.

Paddling through crystal-clear water and spot seals, penguins, and even whales. The experienced Expedition Team will take you to stunning Antarctic areas with high chances of encountering wildlife.

Packing Tips

When preparing for your polar expedition to destinations like Antarctica, it's essential to dress in layers. We recommend packing a warm winter jacket, as well as wind and water-resistant trousers and long thermal underwear, ideally made of wool. Don't forget a warm cap, scarf, and both fleece and wool gloves or mittens. For your inner layers, bring a warm woollen jumper and a fleece jumper or jacket. You'll also need warm socks and comfortable, broken-in walking boots with good soles for both on-

deck and ashore excursions. Other essentials include sunglasses with UV filters, extra camera batteries (as cold weather shortens battery life), an adapter for European power outlets, and a swimsuit for the on-deck whirlpools.

The suites feature flexible sleeping arrangements with a comfortable sofa and sitting areas, as well as a TV and a bathroom with a shower. WHAT TO PACK FOR AN EXPEDITION CRUISE

- Onboard it's smart to wear ordinary shoes.
- Bring a memory card with a large capacity – there are sockets in the cabins to recharge photo equipment.
- The dress code aboard the ship is relaxed and casual and you are not expected to dress formally for meals.
- Extra shoelaces are also a good idea.
- Bring a good pair of binoculars.
- A small waterproof backpack is necessary for carrying essentials.
- Please remember to bring your passport and a copy of it.
- Sun protection.

- Sunglasses with UV filter lenses.
- Lip balm with UV protection. Dry, cold wind and sun often cause chapped lips.
- Money in the correct currency. Remember, the ships also accept several credit cards.
- Remember to bring sufficient medication to last through any unforeseen delays.
- You will receive a wind and water-resistant parka as a memento on this ship.
- Rubber boots are available on loan, at no extra cost.

Expeditions To Polar Waters

- Warm woollen jumper and fleece jumper/jacket, remember layers are essential
- Sunglasses with UV filter lenses

TOUR GUIDE VS. TOUR LEADER

Tour Guide

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader

An experienced person tasked with

ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and, if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when required to enhance the experience of the destination featured.

CLIMATE & AVERAGE TEMPERATURES

If you've never visited a polar destination, you're probably wondering what you can expect weather-wise when you travel to Antarctica. Even if you've spent time in the Arctic Circle, the Antarctic is an entirely different experience. The high elevation and large landmass make the south pole significantly colder than the North. Of course, temperature is only one piece of the Antarctic weather puzzle. Here's an overview of what weather conditions are like on Earth's southernmost destination:

Seasons in Antarctica

Antarctica only has two seasons which are summer and winter. Because it's located in the southern hemisphere, Antarctica's summer is from October to February. During this time, the sun is almost always in the sky. Days rapidly get longer there in summer, until, eventually, the sun doesn't set at all. This phenomenon is called the Midnight Sun. Although there are multiple places in the northern hemisphere that experience this perpetual sunlight during half of the year, Antarctica is the only southern location where it can be seen. January is the warmest month in Antarctica, during which average temperatures climb all the way up to 0

Important Information

degrees in the Antarctic Peninsula. However, the average temperature ranges from -10 degrees celsius to -60 degrees, depending on how far into the continent you travel.

If anyone is in Antarctica once winter comes, they're staying until summer returns. Flights and ships cease travel to and from Antarctica once the weather starts to turn, as conditions become too treacherous for travel. Typically, researchers are the only people who brave the Antarctic night. This is a valuable time for astronomers, who can use complete darkness to get spectacular views of the universe. Climatologists are also busy during this time of year tracking and comparing the temperatures on and below the continent's surface.

LATE SUMMER CRUISING IN ANTARCTICA

February - March

If you choose to go on an Antarctica cruise in February or March, you will be seeing the continent during its late summer period. This provides a variety of benefits, including the ability to explore more thoroughly as the ice melts and breaks apart, allowing for a high chance of seeing whales on the Peninsula.

What whales might you see?

Late summer is the best time to see whales in Antarctica. It is most common to see Humpback whales, Minke whales and killer whales, though it's possible to see many other species as well. These can include blue whales, fin whales, sei whales, southern right whales and sperm whales.

What about penguins?

By March, those adorable penguin chicks are growing up. They begin to fledge and grow into their adult feathers, while their parents may already have gone out to sea to begin to prepare for their own moulting season.

Why go during this season?

If you're an explorer who wants to see as much of Antarctica as possible, choose a

late-summer cruise. As the polar ice melts, you'll have access to points much farther south than you would during other travel seasons. You will certainly see some wildlife, as well, and will get to know the untouched majesty of Antarctica in this particular form.

Visas

A tourist visa for Argentina is no longer required if travelling on an Australian Passport. Passengers must hold a passport valid at least six months on entry with one blank visa page. More information can be found at <https://visasdirect.com.au/requirements>

Please note: Effective immediately, all international travellers to Argentina must hold valid travel insurance with medical coverage. This insurance may be requested and verified upon arrival in the country. Argentina's public healthcare system will no longer provide free medical services to foreign nationals. Important:

- Please start arranging your visa three weeks before departure to account for any delays due to consulate operating hours.
- Visa rules may have changed since Covid-19. Some countries and airlines may require you to obtain an additional visa before arrival. Please check with the nearest embassy, consulate or immigration department of the destination you're entering.

Please note:

- Passengers who are not Australian citizens must also check with the respective consulate or visa agency to determine what their visa requirements are and what personal identification is required.

- It is also important to note that some areas of employment, such as journalism, government authorities and charity organisations, may have additional restrictions in applying for visas. This may, in turn, affect the type of application required.

Embarking on your next trip is exciting, and while you hope the unexpected does not happen, it is best to be prepared. We strongly recommend you take out travel insurance when making your booking.
