Other Important Information

TOUR GUIDE VS. TOUR LEADER

Tour Guide

Often locals with intimate knowledge of an

area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and, if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when required to enhance the experience of the destination featured.

CLIMATE & AVERAGE TEMPERATURES

Cape Town, South Africa

Cape Town has a Mediterranean-style climate: wet and cool winters, dry and warm summers. The annual average temperature in Cape Town is a delightful 17°C.

Maun, Botswana

Temperatures in Botswana differ throughout the year. In summer months the climate is warm to hot (November to March) the maximum temperature can reach 30°C with lows of 14°C. In winter months the temperature can range from highs of 12°C to lows of 2°C, ensuring you

bring warmer clothing, particularly in the evening for winter months.

Victoria Falls, Zimbabwe

In the area of Victoria Falls, the climate is subtropical, with a mild and dry winter from mid-May to mid-August (during which, however, nights are cold), and a hot, muggy and rainy summer from mid-November to mid-March. The rains occur in the form of downpours or thunderstorms. Between September and November, before the rainy season, there is a hot period, which is in fact the hottest of the year, with temperatures easily reaching 35°C, and sometimes up to 40°C, even though the humidity is not as high as in summer. October is the hottest month of the year. On the contrary, in winter, when during the day the weather is nice, the temperature at night may approach freezing (0°C).

Please note: The amount of water at Victoria Falls (waterfall) will depend on the seasonality.

Johannesburg Area, South Africa

Johannesburg is situated on the highveld plateau, and has a subtropical highland climate. The city enjoys a sunny climate, with the summer months (October to April) characterised by hot days followed by afternoon thundershowers and cool evenings, and the winter months (May to September) by dry, sunny days followed by cold nights. Temperatures in Johannesburg are usually fairly mild due to the city's high elevation, with an average maximum daytime temperature in January of 25.6°C, dropping to an average maximum of around 16°C in June. The UV index for Johannesburg in summer is extreme, often reaching 14-16 due to the high elevation and proximity to the equator.

If the frame of your suitcase does not fit these diameters, there is unfortunately nowhere else to safely store your bag.

OTHER

Mobility

If you require wheelchair access please contact our friendly sales and service team to inquire on your behalf.

Fitness Level Required

Adventure (and spontaneity) create some of the best travel memories. Bear in mind, your home schedules and timings might not be adhered to on tour - it's all part of the fun!

A moderate level of fitness will be required. A moderate level of fitness may involve more physical activity, including biking, longer day hikes or extended walking and standing, low-altitude treks, and water-based activities such as canoeing or low-grade kayaking. Guests using any walking aid other than a walking stick would be advised to reconsider as surfaces may be uneven. Some days in the overland truck cover long travel distances on rough terrain.

Please note: If you have any concerns, please consult your healthcare provider prior to purchase/travel.

Yellow Fever

A valid international certificate of vaccination against Yellow Fever is required in many countries. You may need to present this on arrival at the airport or border crossing. Some countries will refuse entry if you are unable to present your certificate. It's also common for your home country to request a Yellow Fever certificate upon arrival. You must check with your doctor well before leaving home about the Yellow Fever requirements for the countries you'll be visiting.

Currency

In Southern Africa, both local currencies and US Dollars are accepted. The conversion rates for local currencies do however fluctuate quite regularly so if you plan on using local currencies in the countries you visit, please check the exchange rate before you depart on tour. If you are carrying US Dollars, always make

sure that they have been printed after 2008 and if possible, request that your bank provides you with a range of bills so that you can use the smaller ones for tipping and the larger ones for settling bills if required.

Most of the major Southern and East African cities do have credit card facilities available, however they may charge you a surcharge to use the facility. Visa and MasterCard are the two most widely accepted credit cards in Africa, while Diners and American Express may not always be accepted. Cards should have a chip and pin if you plan to use them to withdraw money from ATMs. Please be sure to advise your bank before you travel that you will be using your card in a different country as they may block access to your card if they do not know that you are travelling.

Gratuities/Tipping

Land

Gratuities (tips) are not included for the services of the tour leader (when available) and driver throughout the tour. The recommended tip is \$5 USD per person per day. This covers the guide/leader and the driver and will be collected on tour.

Please note: Tipping for services provided is always a matter of personal discretion; however, please be aware that many locals consider tipping part of their normal remuneration, and they may approach you for payment; there's no need to be intimidated by the request.

Sightseeing

Please note: If entry to a site is affected by changes in operating hours or public holiday closures, your itinerary, where possible, may be adjusted, or a similar activity will be offered in its place (subject to availability).

Shopping

Shopping overseas can be a daunting and confusing experience, especially when there is a language barrier. Please be very cautious when foreign currencies and prices are involved. If paying by credit card,

Important Information

please pay close attention to the amount you are being charged and keep all your receipts. Do not make any purchases you are not comfortable with or feel pressured into. If you are uncertain or need assistance with the language barrier, please seek assistance from your Tour Guide/Leader. Please refer to our [Terms and Conditions](#) regarding shopping for further information.

New Zimbabwe Immigration Requirements

Travel Insurance

Embarking on your next trip is exciting, and while you hope the unexpected does not happen, it is best to be prepared. We strongly recommend you take out travel insurance when making your booking.
