Spotting penguins from the ship is exhilarating but the experience becomes even more awe-inspiring when you're on land. As you cruise in smaller explorer boats or take part in optional kayaking excursions, you may even encounter seals or whales right next to you. Be sure to keep your camera ready at all times to capture these unforgettable moments.

Continue onto the Tambomachay Complex to view Incan hydraulic engineering with a series of aqueducts, canals and waterfalls running through the terraced rocks.

Visit Koricancha, adjacent to the Church of Santo Domingo and the most sacred temple of the Inca Empire. Its walls were covered in gold while life-size statues of plants and animals were all made

of pure gold and silver. Sadly, this wealth was stripped away by the Spanish conquistadors, however, it remains a magnificent temple.

Day 20 Antarctica

For the next few days, you'll be surrounded by vast icy waters, towering glaciers and colossal icebergs that seem to stretch into infinity. The sheer scale and beauty of the landscape are almost otherworldly, and at times, you may find yourself simply taking a moment to absorb it all. You'll find that the silence of this frozen world will soon be interrupted by the excited shouts of fellow passengers as penguins, seals and whales make their appearances.

Antarctica's landscape and wildlife are constantly evolving with the seasons. During the late spring months of October and November, the snow-covered terrain appears even more pristine, providing the perfect backdrop for penguins as they court and build their nests. By December and January, the arrival of whales marks the height of summer, coinciding with the hatching of penguin chicks. February and March offer the ultimate whale-watching experience when large pods are drawn to the rich feeding grounds of krill in Antarctic waters.

The Expedition Team will take every opportunity to explore the environment with you so you can get up close and personal with this frozen paradise. Spotting penguins from the ship is exhilarating but the experience becomes even more awe-inspiring when you're on land. As you cruise in smaller explorer boats or take part in optional kayaking excursions, you may even encounter seals or whales right next to you. Be sure to keep your camera ready at all times to capture these unforgettable moments.

Day 21 Antarctica

Be sure to talk to your expedition team onboard about booking optional excursions for your time in Antarctica.

Optional Activity: Overnight Camping

Duration: 10 hours

In the true style of the early explorers, venture out at night for a once in a lifetime experience camping in the Antarctic night. This activity features top of the line camping equipment that meets Antarctic standards for camping on snow. Imagine yourself sleeping under the Antarctic sky with little more than the thin wall of a tent separating you from the elements.

The adventure starts with a pre-camp briefing by the experienced staff who accompany you on the activity. If you have never pitched a tent before, this is your chance as you'll help set up camp after dinner. Afterwards, you can either go to bed or sit outside and marvel at the stillness while you listen to penguins in the distance. Depending on the landing site, you may take short walks to nearby viewpoints and visit penguin colonies in the bright Antarctic night. If you like, you can wake up early to watch the sunrise.

In the morning, you'll take down the camp and boats will pick you up for the return trip to the ship. Back onboard, enjoy a special breakfast and debrief the experience.

Please note:

- *This activity may have limited availability. In the event that space becomes limited, participants will be chosen via a lottery based lucky draw.*
- *As an IAATO member, Hurtigruten adheres to all guidelines associated with onshore overnight stays in Antarctica. This means you leave nothing behind and remove all traces of your presence to protect wildlife and the fragile environment.*

Optional Activity: Snowshoeing

Duration: 2 hours

Take a walk on the wild side with snowshoes as you climb hills, cross glittering white plains and explore untouched landscape. The experienced Expedition Team will guide you to places with awe-inspiring views and you might observe penguin colonies or even see whales swimming in the sea from above.

Merge with nature on an exceptional Antarctic sea kayaking adventure. Explore nature and wildlife up-close as you kayak along awe-inspiring icebergs and glaciers. Gratuities/tipping

Land

Gratuities (tips) are not included for the services of the tour leader (when available) and driver throughout the tour. The recommended tip is \$8 - \$10 USD per person per day. This covers the guide/leader and the driver and will be collected on tour.

Please note: Tipping for services provided is always a matter of personal discretion; however, please be aware that many locals consider tipping part of their normal remuneration, and they may approach you for payment; there's no need to be intimidated by the request.

Cruise

It is not standard practice to tip on Hurtigruten ships, but if you feel that certain crew members should be rewarded for providing exceptional service, there are tip boxes in the restaurant together with envelopes.

Other Important Information

WHAT TO PACK FOR AN EXPEDITION CRUISE

To make packing a bit easier, Hurtigruten has drawn up a packing list. If you should forget something, don't worry! On board all the ships you will find a shop with a wide range of clothes and practical items.

- Onboard it's smart to wear ordinary shoes.
- Bring a memory card with a large capacity – there are sockets in the cabins to recharge photo equipment.
- The dress code aboard the ship is relaxed and casual and you are not expected to dress formally for meals.
- Extra shoelaces are also a good idea.
- Bring a good pair of binoculars.
- A small waterproof backpack is necessary for carrying essentials.

- Please remember to bring your passport and a copy of it.
- Sun protection.
- Sunglasses with UV filter lenses.
- Lip balm with UV protection. Dry, cold wind and sun often cause chapped lips.
- Money in the correct currency. Remember, the ships also accept several credit cards.
- Remember to bring sufficient medication to last through any unforeseen delays.
- You will receive a wind and water-resistant parka as a memento on this ship (or another piece of HX kit).
- Rubber boots are available on loan, at no extra cost.
- Warm winter jacket
- Wind and water-resistant trousers and long thermal underwear and top (we recommend wool)
- Warm cap or headband
- You should also bring swimwear for use in our on-deck whirlpools
- Scarf or fleece tube
- Warm woollen jumper and fleece jumper/jacket, remember layers are essential
- Sunglasses with UV filter lenses
- Gloves and mittens, fleece and wool
- Warm socks
- Bring extra batteries for your camera, as battery life is shorter in cold areas
- Shoes with good soles are recommended for outdoors, on deck, and for excursions ashore. Make sure they are worn-in walking boots.

TOUR GUIDE VS. TOUR LEADER

Tour Guide

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader

Important Information

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and, if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when required to enhance the experience of the destination featured.

CLIMATE & AVERAGE TEMPERATURES

Buenos Aires, Argentina

In December, average temperatures in Buenos Aires range from 18°C to 29°C with gentle breezes. January is considered the hottest month in Buenos Aires, and temperatures can range from 20°C to 30°C. You can expect to experience 14-15 hours of clear and sunny skies during these months and mid- to high humidity.

Rio de Janeiro, Brazil

Rio has a tropical savanna climate that closely borders a tropical monsoon climate according to the Köppen climate classification and is often characterised by long periods of heavy rain between December and March. In inland areas of the city, temperatures above 40°C are common during the summer, though rarely for long periods, while maximum temperatures above 27°C can occur monthly.

Antarctica

December and January are among the most popular and warmest months for visiting Antarctica. There are 24 hours of daylight, so you can enjoy amazing views

of Antarctica anytime. Average temperatures are approximately -1°C to 0°C.

Lima, Peru (Itinerary 2 Only)

Lima is usually described as mild and warm throughout the year without much noteworthy rain, making Lima one of the driest capitals in the world. The average temperatures range from 18°C to 28°C.

Cusco, Peru (Itinerary 2 Only)

Cusco, located in the Andes Mountains of Peru, has a highland climate with distinct dry and wet seasons. The city's elevation, approximately 3,400 metres above sea level, contributes to its cooler temperatures.

Dry Season (May to October): This period is considered winter in Cusco and is characterised by dry and sunny weather. Days are generally clear, ranging from around 10°C to 20°C. However, nights can be quite chilly, with temperatures dropping to around 0°C.

Wet Season (November to April): Cusco's wet season coincides with the summer months. There is a higher chance of rainfall during this time, and the weather can be more unpredictable. Daytime temperatures are still mild, ranging from 12°C to 18°C, but nights are relatively milder compared to the dry season.

It's important to note that Cusco's weather can vary significantly throughout the day due to its high altitude. Visitors are advised to bring layers, including warm clothing for cooler evenings and mornings, as well as sun protection for the strong mountain sun during the day.

Seasons in Antarctica

Antarctica only has two seasons which are summer and winter. Because it's located in the southern hemisphere, Antarctica's summer is from October to February.

During this time, the sun is almost always in the sky. Days rapidly get longer there in summer, until, eventually, the sun doesn't set at all. This phenomenon is called the Midnight Sun. Although there are multiple places in the northern hemisphere that experience this perpetual sunlight during

half of the year, Antarctica is the only southern location where it can be seen.

January is the warmest month in Antarctica, during which average temperatures climb all the way up to 0 degrees in the Antarctic Peninsula. However, the average temperature ranges from -10 degrees celsius to -60 degrees, depending on how far into the continent you travel.

If anyone is in Antarctica once winter comes, they're staying until summer returns. Flights and ships cease travel to and from Antarctica once the weather starts to turn, as conditions become too treacherous for travel. Typically, researchers are the only people who brave the Antarctic night. This is a valuable time for astronomers, who can use complete darkness to get spectacular views of the universe. Climatologists are also busy during this time of year tracking and comparing the temperatures on and below the continent's surface.

LATE SUMMER CRUISING IN ANTARCTICA

February - March

If you choose to go on an Antarctica cruise in February or March, you will be seeing the continent during its late summer period. This provides a variety of benefits, including the ability to explore more thoroughly as the ice melts and breaks apart, allowing for a high chance of seeing whales on the Peninsula.

What whales might you see?

Late summer is the best time to see whales in Antarctica. It is most common to see Humpback whales, Minke whales and killer whales, though it's possible to see many other species as well. These can include blue whales, fin whales, sei whales, southern right whales and sperm whales.

What about penguins?

By March, those adorable penguin chicks are growing up. They begin to fledge and grow into their adult feathers, while their parents may already have gone out to sea to begin to prepare for their own moulting

season.

Why go during this season?

If you're an explorer who wants to see as much of Antarctica as possible, choose a late-summer cruise. As the polar ice melts, you'll have access to points much farther south than you would during other travel seasons. You will certainly see some wildlife, as well, and will get to know the untouched majesty of Antarctica in this particular form.

If you are uncertain or need assistance with the language barrier, please seek assistance from your Tour Guide/Leader. Visas

New Zealand (Transiting)

If you do not hold an Australian passport you may be required to obtain a transit

visa. Some flight routes make a stop in New Zealand and you may be required to obtain a transit visa to board your flight. It is the passengers' sole responsibility to seek advice on the correct visa and take appropriate action to ensure they have the correct visa prior to departure. Failure to do so may result in denied boarding and or refusal of entry to the country by the local authorities and immigration department. We strongly advise you to carefully review your flight tickets and then contact your respective consulate or a visa agency to confirm the necessary visa regulations and acceptable forms of personal identification for your transit.

Brazil

If you are travelling to Brazil, a visa is required for Australian passport holders entering Brazil. Persons travelling to Brazil will require a Visit Visa to enter the country. Entry and exit conditions may change without warning. Follow the advice of border and health authorities and comply with local regulations. More information can be found here and for those arriving in Brazil by air, sea, or land, the online visa application form is accessible here.

Argentina

As a tourist, you can stay for up to 90 days without a visa, but you'll need evidence that you intend to depart the country within the 90 days, along with the following:

- A return or onward ticket and valid passport.
- Travel/medical insurance.

Please note: Officials may also ask for proof of accommodation and evidence that you have enough money or a credit card to cover your trip.

Please Note: Effective immediately, all international travellers to Argentina must hold valid travel insurance with medical coverage.

This insurance may be requested and verified upon arrival in the country. Argentina's public healthcare system will no longer provide free medical services to

foreign nationals. It is therefore essential that you obtain appropriate insurance before your departure.

Peru

Tourists don't need a visa. You can get a permit to stay for up to 3 months when you arrive. You may need a valid yellow fever vaccination certificate to enter Peru. Some airlines may want to see one when you leave. If you've visited Peru in the previous 6 days, you'll need a valid certificate to enter Australia.

Chile

If you are travelling to Chile, you must obtain your visa before you arrive in Chile. The application process can be lengthy, so allow yourself enough time before your planned travel. If you arrive in Chile without a valid visa, you won't be able to pass the immigration point, and you'll be sent back to your last port of departure. You won't be able to obtain a visa at the airport or border entry point. To enter Chile, Australian citizens must obtain a visa before arrival: SAC Sistema Atención Consular - Ciudadanos. Please reach out to the Chilean consulate for any visa requirements.

United States (Transiting)

If travelling on an Australian passport, an ESTA (visa waiver) for the USA is a strict requirement when travelling to or flying through the USA. Once a USA ESTA visa waiver is issued it is valid for 2 years or until your passport expires (whichever is sooner) and will allow multiple entries into the USA. For information on ESTA eligibility or to apply, please visit <https://esta.cbp.dhs.gov/esta/>.

Please note: Due to recent changes to USA immigration policies, TripADeal recommends all travellers visit US Customs & Border Protection.

Important:

- *Please start arranging your visa three weeks before departure to account for any delays due to consulate operating hours.*

Important Information

- *Visa rules are subject to change. Please check with the nearest embassy, consulate or immigration department of the destination/s you are visiting once you receive your travel documentation to ensure you have the most up to date information.*
- *It is your responsibility to be travel-ready and ensure that you are aware and comply with any destination or travel requirements, including the validity of all required travel documents.*
- *Passengers who are not Australian citizens must also check with the respective consulate or visa agency to determine what their visa requirements are and what personal identification is required.*
- *It is also important to note that some areas of employment, such as journalism, government authorities and charity organisations, may have additional restrictions in applying for visas. This may, in turn, affect the type of application required.*

Travel Insurance

Embarking on your next trip is exciting, and while you hope the unexpected does not happen, it is best to be prepared. We strongly recommend you take out travel insurance when making your booking. Whether it's a potential medical emergency, a flight cancellation, a delayed suitcase, or an unforeseen event, it's important to ensure you're adequately protected.
