

African Great Migration

AMBOSELI ● SERENGETI ● MASAI MARA

The Offer

Experience a 14-day, once-in-a-lifetime safari journey across the Serengeti in Tanzania to the Masai Mara in Kenya. The Great African Migration is one of the world's most breathtaking natural spectacles as massive herds of buffalo, zebras, antelopes, and their predators trek across the plains. Experience expert-led safari game drives, see Mount Kilimanjaro and visit Ngorongoro Crater, Lake Victoria and more.

Your journey begins in Nairobi, Kenya, before immersing yourself in the natural wilderness of Amboseli National Park. Join safari game drives led by expert safari rangers and trackers to seek out Amboseli's large elephant herds beneath breathtaking views of Mount Kilimanjaro. Next, descend into the world's largest volcanic caldera to explore the UNESCO-listed Ngorongoro Crater, a natural wildlife sanctuary. Bubbling springs and sweeping grasslands make this the ideal location to have a chance to spot the Big 5 - lions, leopards, rhinos, cape buffalos and elephants.

Cross to Tanzania and into the boundless Serengeti Plains to witness the Great African Migration. An estimated 1.5 million wildebeest, buffalo, zebras and gazelles move in search of fresh grazing lands. Following close behind are their predators - lions, cheetahs and crocodiles. Recharge and unwind on the shores of Lake Victoria with a day at leisure in Mwanza before crossing back into Kenya for the untamed raw beauty of the Masai Mara National Park. Keep your camera ready for a wealth of wildlife sightings, including elephants, giraffes, hippo, antelope and a whole host of birdlife. Top it all off with an optional sunrise hot air balloon experience (charges apply) high above these wildlife-rich plains, before your flight back home.

The African Great Migration safari package includes return international flights, 11 nights of accommodation in lodges, hotel & safari camps, 31 meals and more.

TOUR GUIDE VS. TOUR LEADER

Tour Guide

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or

commentary of a city/village/attraction once there and, if caught doing so, can be fined.

GREAT MIGRATION - IMPORTANT INFORMATION

The Great Migration in East Africa is one of the world's most spectacular wildlife events but unlike many migrations that happen seasonally in a short burst, this one is a continuous, year-round cycle. Over 1.5-2 million wildebeest, along with hundreds of thousands of zebras and gazelles, are constantly on the move through Tanzania's Serengeti and Kenya's Maasai Mara in search of fresh grazing and water.

Here's how the continuous event works through the year:

- December - March: Calving season in the southern Serengeti/Ndutu area.
- April - May: Herds start moving northwest through the central Serengeti as the plains dry out.
- June - July: The western corridor and Grumeti River crossings.
- July - September: The famous Mara River crossings into Kenya's Maasai Mara.
- October - November: Herds move back south through the Serengeti as rains return, restarting the cycle.

Please note: Wildlife movements are influenced by rainfall and seasonal conditions. While this cycle provides a general guide, sightings can vary and specific experiences cannot be guaranteed.

CLIMATE & AVERAGE TEMPERATURES

Kenya: Inland & Highland Areas (Nairobi, Amboseli & more)

Milder and Less Humid: These areas, including Nairobi, are generally cooler and less humid than the coast, with temperatures typically ranging from 12°C to 25°C. Cooler Nights: Nights can be quite cold, especially in the highlands,

Important Information

where temperatures can occasionally drop close to freezing.

Tanzania

From July to August, Tanzania's weather is generally the coolest, the sunniest and the driest. June is a good month almost everywhere, but in the north-east the long rains can linger on until this month.

September is also a good month, but at lower elevations the days can be hot. In October, the season of the short rains begins in the north, though in the first half of the month, there is usually little rain, however, it can get hot at low altitudes. In November, rain tends to fall overnight, this is an ideal month for nature lovers as the land blooms.

Weather

We always suggest referring to an online source for the most up-to-date weather information for your destination/s.

Adventure (and spontaneity) create some of the best travel memories. Bear in mind, your home schedules and timings might not be adhered to on tour - it's all part of the fun!

A moderate level of fitness will be required. Expect a moderate pace of touring with a focus on guided tours that may include full days with extended activity, guided city tours or nature walks. You will require a general level of fitness for unassisted navigation of stairs and inclines, longer distances with possible periods of standing when visiting sites, walking on sloping, uneven ground or elevations. You will be responsible for your

own luggage and have the ability to board all modes of transport without assistance.

Please note: Many areas may be inaccessible to wheelchairs or mobility scooters, where the unassisted use of personal walking sticks and other aids may be required. Although some assistance may be available, every traveller should be self-reliant during all aspects of their travel.

Yellow Fever

A valid international certificate of vaccination against Yellow Fever is required in many countries. You may need to present this on arrival at the airport or border crossing. Some countries will refuse entry if you are unable to present your certificate. It's also common for your home country to request a Yellow Fever certificate upon arrival. You must check with your doctor well before leaving home about the Yellow Fever requirements for the countries you'll be visiting.

Sightseeing

Please note: If entry to a site is affected by changes in operating hours or public holiday closures, your itinerary, where possible, may be adjusted, or a similar activity will be offered in its place (subject to availability).

Wildlife

TripADeal cannot guarantee animal sightings. Wildlife are unpredictable and factors such as weather conditions, predatory fear and animal movements can impact sightings.

Important:

- *Please start arranging your visa three weeks before departure to account for any delays due to consulate operating hours.*
- *Visa rules are subject to change. Please check with the nearest embassy, consulate or immigration department of the destination/s you are visiting once you receive your travel documentation to ensure you have the most up to date information.*
- *It is your responsibility to be travel-ready and ensure that you are aware and comply with any destination or travel requirements, including the validity of all required travel documents.*
- *Passengers who are not Australian citizens must also check with the respective consulate or visa agency to determine what their visa requirements are and what personal identification is required.*
- *It is also important to note that some areas of employment, such as journalism, government authorities and charity organisations, may have additional restrictions in applying for visas. This may, in turn, affect the type of application required.*
