Other Important Information

TOUR GUIDE VS. TOUR LEADER

Tour Guide

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and, if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when required to enhance the experience of the destination featured.

WHAT TO PACK

Important Information

Core Layers (Moisture-Wicking)

- Long-sleeved thermal tops (2-3): Look for merino wool, synthetic fabrics (like polyester or polypropylene), or silk. These wick away moisture and keep you warm even if you sweat. Different weights can be useful (lightweight and midweight).
- Thermal leggings/long underwear (2-3): Similar materials to thermal tops.
- Moisture-wicking socks (4-5 pairs): Wool or synthetic blends are best to keep your feet dry and warm. Avoid cotton as it retains moisture and can lead to cold feet.

Insulating Layers (Warmth)

- Fleece jacket or pullover (1-2): Provides excellent mid-layer warmth. Consider a lighter and a heavier option for layering flexibility.
- Down or synthetic insulated jacket: This will be your primary warmth layer for colder days. Down is lighter and warmer for its weight but loses insulation when wet. Synthetic insulation performs better in damp conditions. Consider the typical temperatures of your destinations when choosing the warmth level.
- Insulated vest (optional): Adds extra warmth to your core without restricting arm movement.

Outer Layers (Protection from Wind, Snow, and Rain)

- Waterproof and windproof outer shell jacket: Essential for protection against snow, rain, and wind. Look for features like a hood, sealed seams, and breathable fabric.
- Waterproof and windproof outer shell pants: Important for keeping your legs dry and warm, especially if you'll be spending time outdoors.

Head, Hands & Feet

- Warm hat that covers your ears: Wool, fleece, or a combination of materials. Consider a balaclava or neck gaiter for extra face and neck protection on very cold days.

- Waterproof and insulated gloves or mittens: Mittens are generally warmer than gloves. Bring at least one pair, and consider a thinner liner glove underneath for added warmth and dexterity when you need to take off your outer gloves.
- Warm, waterproof, and insulated winter boots: Look for good traction, ankle support, and insulation appropriate for the expected temperatures. Ensure they are comfortable for walking.
- Warm socks (several pairs): Wool or synthetic blends of varying thicknesses to suit different activities and temperatures.

Accessories

- Scarf or neck gaiter: Protects your neck and face from the cold and wind.
- Sunglasses: The winter sun reflecting off snow can be surprisingly bright and harmful. Look for UV protection.
- Lip balm with SPF: Cold and dry air can chap lips easily.
- Small backpack: For carrying layers, water, snacks, and essentials during day trips and activities.
- Travel adapter (if needed): Canadian outlets are Type A and B (120V).
- Camera and extra batteries: Cold weather can drain batteries quickly.

Weather

We always suggest referring to an online source for the most up-to-date weather information for your destination/s.

FLIGHTS

Seat Selection & Frequent Flyer Points

We do not arrange seat selection. It is essential to highlight that some airlines do not allow pre-selected seats. We strongly suggest you contact the airline directly with seating allocation requirements and/or arrive at the airport earlier to arrange your seating. While we do not add frequent flyer member details to bookings, you can do this directly with the airline once you have your flight information.

Dietary Requests

Meal options and availability differ

between airlines and routes therefore not all dietary requests can be accommodated. If your flight includes meals we will select the most suitable option available based on the dietary requirements you have specified. All meal requests are subject to airline approval and are not guaranteed, therefore we recommend preparing for your flight by bringing appropriate food for yourself, as required.

Passport Validity

If paying by credit card, please pay close attention to the amount you are being charged and keep all your receipts. Do not make any purchases you are not comfortable with or feel pressured into. Visas

Canada

Australian and New Zealand passport holders must apply for an electronic travel authorisation (eTA) before travelling to Canada by air. An Electronic Travel Authorization (eTA) is an entry requirement for visa-exempt foreign nationals travelling to Canada by air. An eTA is electronically linked to a traveller's passport. It is valid for up to five years or until the passport expires, whichever comes first. If you get a new passport, you need to get a new eTA.

United States

If travelling on an Australian or New Zealand passport, an ESTA (Visa Waiver) for the USA is a strict requirement when travelling to or flying through the USA. Once a USA ESTA Visa Waiver is issued it is valid for 2 years or until your passport expires (whichever is sooner) and will allow multiple entries into the USA. For information on ESTA eligibility or to apply, please visit <https://esta.cbp.dhs.gov/esta/>.

Please note: Due to recent changes in the USA Immigration policies, TripADeal recommends all travellers visit US Customs & Border Protection.

Important:

- *Please start arranging your visa three weeks before departure to account for any delays due to consulate operating hours.*
- *Visa rules are subject to change. Please check with the nearest embassy, consulate or immigration department of the destination/s you are visiting once you receive your travel documentation to ensure you have the most up to date information.*

- *It is your responsibility to be travel-ready and ensure that you are aware and comply with any destination or travel requirements, including the validity of all required travel documents.*
- *Passengers who are not Australian citizens must also check with the respective consulate or visa agency to determine what their visa requirements are and what personal identification is required.*
- *It is also important to note that some areas of employment, such as journalism, government authorities and charity organisations, may have additional restrictions in applying for visas. This may, in turn, affect the type of application required.*
