The Itinerary

Itinerary 1

Day 5 Urbina Bay & Tagus Cove, Isabela Island

This morning, explore Urbina Bay on the western coast of Isabela Island, nestled at the base of Alcedo Volcano. The area experienced a significant uplift from the sea in 1954, the area offers a fascinating landscape where stranded marine life still tells the story of this dramatic geological event. Follow a 3.2 kilometre trail through a mix of sand, pumice, lava, coral, and coastal vegetation, keeping an eye out for land iguanas, larger than those found on South Plaza Island, and burrows tucked into the earth. The area is also home to Darwin's finches, giant tortoises, and native flora such as chamomile, rosewood, and the rare Darwin's cotton flowers. Snorkelling here may reward you with sightings of penguins gliding through the water and vibrant red and blue lobsters hiding among the rocks.

In the afternoon, visit Tagus Cove, located to the west of Darwin Volcano. Once a refuge for pirates and whalers, the area still bears their legacy with 19th-century graffiti carved into the stone walls. The trail here is moderately challenging and leads to a lookout above the emerald waters of Darwin Lake, offering sweeping views of the bay below. Along the way, look out for finches, mockingbirds, and volcanic formations such as "lapilli", small, spherical rock fragments formed during eruptions. Tagus Cove is also a fantastic spot for kayaking and snorkelling, with the added chance of encountering a colony of flightless cormorants nestled along the rocky shores.

Day 6 Espinoza Point, Fernandina Island & Vicente Roca Point, Isabela Island

This morning, visit Espinoza Point on Fernandina Island, one of the most untouched and remote corners of the Galápagos. Here, you'll find dense colonies of marine iguanas sprawled across the black lava rocks, resembling miniature dragon armies basking in the sun. The site is also home to remarkable wildlife including the flightless cormorant, Galapagos penguin, Galapagos hawk, and even the elusive Galapagos snake. With its raw beauty and thriving biodiversity, Espinoza Point offers a true taste of the islands' wild side.

In the afternoon, continue to Vicente Roca Point on the northwestern coast of Isabela Island. Framed by dramatic cliffs and striking lava formations, this bay is a haven for marine life. Snorkel or enjoy a panga ride through its nutrient-rich waters, where you may spot sea turtles, seahorses, sunfish (Mola mola), and an abundance of coastal birds such as penguins, blue-footed boobies, terns, and playful sea lions. The Itinerary

Itinerary 1

Day 7 Espumilla Beach & Puerto Egas, Santiago Island

This morning, explore Espumilla Beach on the northern coast of Santiago Island, tucked within James Bay. Known for its stunning coastal scenery shaped by sea erosion, the area offers a fascinating mix of ecosystems, from dry palo santo forest to lush mangroves and humid zones. Wander the sand dunes where baby sea turtles may be seen nesting, and keep an eye out for a vibrant flamingo colony in the nearby lagoon. Wildlife is abundant here, with sightings of sea lions, fur seals, marine turtles, oystercatchers, herons, marine iguanas, and an array of sea and land birds, including the Galapagos dove, finches, and hawks. The landscape also tells the story of past conservation challenges, with visible signs of damage from previous invasive species like feral goats, now successfully eradicated.

In the afternoon, visit Puerto Egas, home to a striking black sand beach made of volcanic tuff. This site once housed a salt mining operation and its abandoned remains can still be seen scattered along the shoreline. Walk the trail past sea lion colonies to a series of tidal grottoes, where fur seals gather to swim and play in the pools. With its dramatic contrast of dark rock and the vivid red of Sally Lightfoot crabs, this is a photographer's dream. Snorkelling here offers a chance to swim alongside marine iguanas, playful sea lions, and a colourful array of marine life.

Day 8 Rábida Island & Sombrero Chino

This morning, explore the striking landscapes of Rábida Island, instantly recognisable by its rich red sands and rocks, coloured by oxidised volcanic material. A short walk leads to a saltwater lagoon where flamingos often gather, and land birds flit through the surrounding vegetation. Along the coast, watch pelicans plunge for fish against a vivid backdrop of red beach and green foliage. Snorkelling along the island's shoreline is considered among the best in the archipelago, with opportunities to swim alongside playful sea lions and observe moray eels, small sharks, starfish, and an array of colourful reef fish.

In the afternoon, visit Sombrero Chino (Chinese Hat), a tiny volcanic islet off the southeastern tip of Santiago Island. This young volcanic cone lives up to its name, with a distinct shape that resembles a traditional Chinese hat. Wander among surreal lava landscapes dotted with vibrant red sesuvium plants, bright orange-billed oystercatchers, Sally Lightfoot crabs, and lava cacti. Sea lions, marine iguanas, lava lizards, and Galapagos penguins are commonly seen resting or playing along the shore. The channel between Chinese Hat and Santiago Island provides a sheltered deep-water snorkelling site with calm turquoise waters. Here, you might encounter white-tipped reef sharks resting in underwater caves, as well as stingrays, parrotfish, sea turtles, more penguins, and, if you're lucky, a passing pod of dolphins or the rare sighting of a whale shark.

From here, the tour continues to Lima's historic centre, a designated UNESCO World Heritage site, where you'll visit the stunning Plaza de Armas. Day 4 Cusco, City Tour

Today, enjoy a guided tour of beautiful Cusco, starting at the wonderful Qorikancha which is next door to Santo Domingo Church. The Qorikancha was one of the Incan Empire's most sacred and important temples. Sadly stripped by Spanish conquistadors, the Qorikancha's walls were once covered with gold and decorated with life-size statues of plants and animals, said to be made of pure gold and silver.

Head to Cusco Cathedral and see its main altar and pulpit covered in gold and silver relief work. Located on the Plaza de Armas, and built between 1560 and 1664 on top of the foundations of an existing Incan temple, this spectacular cathedral houses many works of art by the Cusco School. The next stop is the imposing Incan fortress of Sacsayhuamán, which sits on a hill above Cusco. Here, you can see some of the finest examples of Incan stonework and construction, including massive rocks that were carefully cut and perfectly fitted together to form the walls. After exploring Sacsayhuamán, head up the hill to the Tambomachay Archeological Complex. Although the exact purpose of this site is unknown, it's thought to have functioned, at least in part, as an Incan spa.

Along the way, spot grazing alpacas and llamas, and pass through remote villages where traditional Andean life still thrives.

After about 1.5 hours of hiking, reach Rainbow Mountain, standing at an impressive 5,100 metres. Marvel at the vibrant mineral layers that create the mountain's iconic striped appearance and enjoy approximately 30 minutes at the summit to take in the panoramic views, snap photos, and absorb the majestic setting. The first stop is the charming village of Pisac, nestled alongside the Urubamba River. Explore the colourful traditional market, where vibrant stalls brim with handmade textiles, ceramics, jewellery, and other artisan treasures, perfect souvenirs to take home. After around 30 minutes in the market, ascend to the impressive Pisac archaeological site perched high above the valley. Enjoy a guided walk through the extensive ruins, which include Inca altars, temples, tunnels, and the iconic Intihuatana, or "hitching post of the sun," all set against sweeping views of the valley below.

From Ollantaytambo, board the Peru Expedition train to Aguas Calientes (also known as Machu Picchu Pueblo), a colourful town at the foot of Machu Picchu. The two-hour train ride is a memorable experience, as you pass through river canyons and rolling hills. Aguas Calientes is the gateway to Machu Picchu, sitting in a deep gorge at the foot of the mountain on which

Machu Picchu stands. It is a beautiful town that mixes traditional life with a massive tourist infrastructure, with many markets, souvenir shops, hotels and restaurants. It's also largely pedestrianised, making it a fun place to explore on foot. Jungle-covered mountains and cliffs surround Aguas Calientes, and the Urubamba River flows by the town. Built on a steep hillside overlooking the Urubamba River, this archaeological site has ten baths and numerous Inca buildings displaying high levels of Inca masonry. Wiñay Wayna was discovered almost 30 years after the entire world knew about Machu Picchu and 40 years after Machu Picchu was first discovered. The Itinerary

Itinerary 2 - WITH PRE-TOUR PERU EXTENSION

Embark on a captivating half-day tour of Maras and Moray, beginning with a pickup from your Cusco hotel at approximately 09:00. The journey to Moray takes about 1.5 hours, offering breathtaking views of the Andean landscape along the way. Pass golden wheat fields, charming traditional villages, and majestic snow-capped mountains.

Upon arrival at Moray, explore its fascinating amphitheatre-like terraced structures. These circular terraces, believed to have been an agricultural laboratory for the Incas, showcase their innovative techniques for optimising crop growth. It's a truly awe-inspiring site that highlights the ingenuity of the Inca Empire. Next, you'll visit Maras, located just 3 kilometres from Moray. Marvel at the ancient salt evaporation ponds carved into the mountainside. More than 3,000 pools collect salty spring water that evaporates to leave behind the renowned sal de Maras, a prized pink salt still harvested today. The view of these glistening ponds, resembling a blanket of snow or ice, is unforgettable.

After exploring Maras, you'll return to Cusco, with drop-off at your hotel included. Please see the current pricing in the Important Information section.

Optional Activity: Rainbow Mountain Trek

Physical ability: Active (please refer to the "Other Important Information" section for more information).

Set off before sunrise on an unforgettable full-day adventure to Rainbow Mountain (Vinicunca), one of Peru's most spectacular natural wonders. Your day begins with a 05:00 hotel pick-up from Cusco, followed by an approximately three-hour scenic drive

through the South Valley, where you'll enjoy breathtaking Andean landscapes and a delicious breakfast en route. Start your hike in the small town of Pitumarca (3,310 metres), following a gentle path beside a tranquil stream, with views of Mount Ausangate, one of the region's most sacred peaks. Along the way, spot grazing alpacas and llamas, and pass through remote villages where traditional Andean life still thrives.

After about 1.5 hours of hiking, reach Rainbow Mountain, standing at an impressive 5,100 metres. Marvel at the vibrant mineral layers that create the mountain's iconic striped appearance and enjoy approximately 30 minutes at the summit to take in the panoramic views, snap photos, and absorb the majestic setting. The return hike is approximately one hour, followed by a hearty buffet lunch at a local restaurant.

Afterwards, sit back and relax during the three-hour drive back to Cusco, arriving around 16:00. Please see current pricing in Important Information.

The Itinerary

Itinerary 2 - WITH PRE-TOUR PERU EXTENSION

Day 15 Urbina Bay & Tagus Cove, Isabela Island

This morning, explore Urbina Bay on the western coast of Isabela Island, nestled at the base of Alcedo Volcano. The area experienced a significant uplift from the sea in 1954, the area offers a fascinating landscape where stranded marine life still tells the story of this dramatic geological event. Follow a 3.2 kilometre trail through a mix of sand, pumice, lava, coral, and coastal vegetation, keeping an eye out for land iguanas, larger than those found on South Plaza Island, and burrows tucked into the earth. The area is also home to Darwin's finches, giant tortoises, and native flora such as chamomile, rosewood, and the rare Darwin's cotton flowers. Snorkelling here may reward you with sightings of penguins gliding through the water and vibrant red and blue lobsters hiding among the rocks.

In the afternoon, visit Tagus Cove, located to the west of Darwin Volcano. Once a refuge for pirates and whalers, the area still bears their legacy with 19th-century graffiti carved into the stone walls. The trail here is moderately challenging and leads to a lookout above the emerald waters of Darwin Lake, offering sweeping views of the bay below. Along the way, look out for finches, mockingbirds, and volcanic formations such as "lapilli", small, spherical rock fragments formed during eruptions. Tagus Cove is also a fantastic spot for kayaking and snorkelling, with the added chance of encountering a colony of flightless cormorants nestled along the rocky shores.

Overnight: MC Galapagos Seaman Journey catamaran or similar
Meals included: Breakfast; Lunch; Dinner

Day 16 Espinoza Point, Fernandina Island & Vicente Roca Point, Isabela Island

This morning, visit Espinoza Point on Fernandina Island, one of the most untouched and remote corners of the Galápagos. Here, you'll find dense colonies of marine iguanas sprawled across the black lava rocks, resembling miniature dragon armies basking in the sun. The site is also home to remarkable wildlife including the flightless cormorant, Galapagos penguin, Galapagos hawk, and even the elusive Galapagos snake. With its raw beauty and thriving biodiversity, Espinoza Point offers a true taste of the islands' wild side.

In the afternoon, continue to Vicente Roca Point on the northwestern coast of Isabela Island. Framed by dramatic cliffs and striking lava formations, this bay is a haven for marine life. Snorkel or enjoy a panga ride through its nutrient-rich waters, where you may spot sea turtles, seahorses, sunfish (Mola mola), and an abundance of coastal birds such as penguins, blue-footed boobies, terns, and playful sea lions. It's a spectacular setting to explore both above and below the surface.

Itinerary 2 - WITH PRE-TOUR PERU EXTENSION

Day 17 Espumilla Beach & Puerto Egas, Santiago Island

This morning, explore Espumilla Beach on the northern coast of Santiago Island, tucked within James Bay. Known for its stunning coastal scenery shaped by sea erosion, the area offers a fascinating mix of ecosystems, from dry palo santo forest to lush mangroves and humid zones. Wander the sand dunes where baby sea turtles may be seen nesting, and keep an eye out for a vibrant flamingo colony in the nearby lagoon. Wildlife is abundant here, with sightings of sea lions, fur seals, marine turtles, oystercatchers, herons, marine iguanas, and an array of sea and land birds, including the Galapagos dove, finches, and hawks. The landscape also tells the story of past conservation challenges, with visible signs of damage from previous invasive species like feral goats, now successfully eradicated.

In the afternoon, visit Puerto Egas, home to a striking black sand beach made of volcanic tuff. This site once housed a salt mining operation and its abandoned remains can still be seen scattered along the shoreline. Walk the trail past sea lion colonies to a series of tidal grottoes, where fur seals gather to swim and play in the pools. With its dramatic contrast of dark rock and the vivid red of Sally Lightfoot crabs, this is a photographer's dream. Snorkelling here offers a chance to swim alongside marine iguanas, playful sea lions, and a colourful array of marine life.

Overnight: MC Galapagos Seaman Journey catamaran or similar
Meals included: Breakfast; Lunch; Dinner

Day 18 Rábida Island & Sombrero Chino

This morning, explore the striking landscapes of Rábida Island, instantly recognisable by its rich red sands and rocks, coloured by oxidised volcanic material. A short walk leads to a saltwater lagoon where flamingos often gather, and land birds flit through the surrounding vegetation. Along the coast, watch pelicans plunge for fish against a vivid backdrop of red beach and green foliage. Snorkelling along the island's shoreline is considered among the best in the archipelago, with opportunities to swim alongside playful sea lions and observe moray eels, small sharks, starfish, and an array of colourful reef fish.

In the afternoon, visit Sombrero Chino (Chinese Hat), a tiny volcanic islet off the southeastern tip of Santiago Island. This young volcanic cone lives up to its name, with a distinct shape that resembles a traditional Chinese hat. Wander among surreal lava landscapes dotted with vibrant red sesuvium plants, bright orange-billed oystercatchers, Sally Lightfoot crabs, and lava cacti. Sea lions, marine iguanas, lava lizards, and Galapagos penguins are commonly seen resting or playing along the shore. The channel between Chinese Hat and Santiago Island provides a sheltered deep-water snorkelling site with calm turquoise waters. Here, you might encounter white-tipped reef sharks resting in underwater caves, as well as stingrays, parrotfish, sea turtles, more penguins, and, if you're lucky, a passing pod of dolphins or the rare sighting of a whale shark.

CLIMATE & AVERAGE TEMPERATURES

Quito, Ecuador

In Quito, the climate is warm and temperate. There is a great deal of rainfall in Quito, even in the driest month. The average annual temperature is 13.9°C. With an average of 14.1°C May is the warmest month. The lowest average temperature in the year occurs in June when it is around 13.6°C.

Santa Cruz, Galapagos, Ecuador

No time of year is too hot or too cold to enjoy the Galapagos, but the climate is not exactly the same throughout. June through December are considered the cooler months in terms of both the air and water. This is also the time of the dry season, where the highlands of the major islands

are kept lush but the beaches and flatlands receive very little rain. Blue skies interrupted by sparse and sporadic afternoon showers are the norm.

Cusco, Peru (Itinerary 2 Only)

Cusco has a subtropical highland climate due to its elevation (3500m above sea level). It is generally dry and temperate, with two defined seasons. The dry season lasts from May to August, with abundant sunshine and occasional nighttime freezes; July is the coldest month with an average of 9.7°C. The wet season lasts from December to March, with night frost less common; November averages 13.3°C. Although frost and hail are common, the only snowfall ever recorded was in June 1911. Temperatures usually range from 0.2°C to 20.9°C.

Fitness Level Required:

Adventure (and spontaneity) create some of the best travel memories. Bear in mind, your home schedules and timings might not be adhered to on tour - it's all part of the fun!

A moderate level of fitness will be required. Expect a moderate pace of touring with a focus on guided tours that may include full days with extended activity, guided city tours or nature walks. You will require a general level of fitness for unassisted navigation of stairs and inclines, longer distances with possible periods of standing when visiting sites, walking on sloping, uneven ground or elevations. You will be responsible for your own luggage and have the ability to board all modes of transport without assistance.

Please note: Many areas may be inaccessible to wheelchairs or mobility scooters, where the unassisted use of personal walking sticks and other aids may be required. Although some assistance may be available, every traveller should be self-reliant during all aspects of their travel.

Please note: It is expected that every traveller must be self-reliant and able to undertake all aspects of their own travel. Please speak to your booking agent about your personal circumstances and any assistance requirements to ensure this tour is right for you.

Please note: If you have any concerns, please consult your healthcare provider prior to purchase/travel.

Catamaran Excursions & Activities:

Moderate

Travelling aboard a catamaran in the Galapagos involves moderate physical activity and mobility. Passengers must be

comfortable boarding and disembarking from small dinghies (zodiacs), often at wet landings where feet may get wet. Onshore excursions include walking over uneven, rocky terrain and occasional beach or lava surface hikes. Optional activities such as kayaking and snorkelling require a reasonable level of fitness and confidence in the water. Recommended for active travellers with good balance, agility, and an adventurous spirit, this experience offers a unique and rewarding way to connect with the islands' incredible landscapes and marine life.

Rainbow Mountain Trek (Optional Activity): Active

The Rainbow Mountain Trek is a challenging yet rewarding adventure, suitable for those with a good fitness level who exercise regularly. This trek involves hiking at high altitudes, navigating uneven terrain for several hours. Participants should be prepared for steep ascents and the effects of altitude. Recommended for active travellers with prior trekking experience and a reasonable level of endurance, this trek offers breathtaking views of the vibrant Rainbow Mountain and its surrounding landscapes

Express Inca Trail Trek (Optional Activity): Active

Active/demanding are more strenuous activities, suitable for a good fitness level and for guests who exercise regularly. More fast-paced activities and walking on uneven surfaces. A high fitness level is required to undertake activities, which include high-altitude trekking for anywhere between four to seven hours per day for an extended number of days. Recommended for active travellers with some previous trekking experience.

Please note: If you have any concerns, please consult your healthcare provider prior to purchase/travel.

High Altitude Illness:

Altitude illness occurs when there is a lack of oxygen in the air at high altitudes. Altitude illness will affect some travellers,

with no apparent regard to age, gender or physical condition. If you have any concerns please consult your healthcare provider prior to purchase/travel.

Please note: Inoculations may be required to enter the country visited, along with re-entry into Australia after your visit. It is your responsibility to consult with your travel doctor for up-to-date medical travel information well before departure.

Yellow Fever:

A valid international certificate of vaccination against Yellow Fever is required in many countries. You may need to present this on arrival at the airport or border crossing. Some countries will refuse entry if you are unable to present your certificate. It's also common for your home country to request a Yellow Fever certificate upon arrival.

You must check with your doctor well before leaving home about the Yellow Fever requirements for the countries you'll be visiting.

Sightseeing:

Please note: If entry to a site is affected by changes in operating hours or public holiday closures, your itinerary, where possible, may be adjusted, or a similar activity will be offered in its place (subject to availability).

Shopping:

Shopping overseas can be a daunting and confusing experience, especially when there is a language barrier. Please be very cautious when foreign currencies and prices are involved. If paying by credit card, please pay close attention to the amount you are being charged and keep all your receipts.

Do not make any purchases you are not comfortable with or feel pressured into. If you are uncertain or need assistance with the language barrier, please seek assistance from your Tour Guide/Leader. Please refer to our [Terms and Conditions](#) regarding shopping for further information.

Some flight routes make a stop in New Zealand and you may be required to obtain a transit visa to board your flight. It is the passengers' sole responsibility to seek advice on the correct visa and take appropriate action to ensure they have the correct visa prior to departure. Failure to do so may result in denied boarding and or refusal of entry to the country by the local authorities and immigration department. We strongly advise you to carefully review your flight tickets and then contact your respective consulate or a visa agency to confirm the necessary visa regulations and acceptable forms of personal identification for your transit.

Chile (Stopover)

- Passengers who are not Australian citizens must also check with the respective consulate or visa agency to determine what their visa requirements are and what personal identification is required.
- It is also important to note that some areas of employment, such as journalism, government authorities and charity organisations, may have additional restrictions in applying for visas. This may, in turn, affect the type of application required.

Embarking on your next trip is exciting, and while you hope the unexpected does not happen, it is best to be prepared. We strongly recommend you take out travel insurance when making your booking.
