Day 2 Lima City Tour

After breakfast, set off on a city tour of Lima, starting with a brief stop at the Huaca Pucllana Archaeological Site, an ancient pre-Inca ceremonial centre, before continuing to Lima's UNESCO World Heritage-listed historic centre. Explore Plaza de Armas, the heart of the city, surrounded by grand colonial and Republican-era buildings with their signature carved wooden balconies. Iconic landmarks border the square, including the Government Palace, Lima Cathedral, Archbishop's Palace, Municipal Palace, and the Palace of the Union.

From the square, walk to the Convent of San Francisco, one of Peru's most important religious sites. Founded in the 1530s and completed in 1766, this remarkable complex has withstood earthquakes for centuries. Inside, its historic library preserves over 25,000 rare volumes in Spanish, English, and Quechua, some dating back to the 16th century. The convent is built around a tranquil courtyard planted with mango and lucuma trees, while its walls feature striking murals of St Francis of Assisi.

Among the highlights are a golden Baroque altarpiece and Diego de la Puerto's famous 1696 painting of The Last Supper, notably featuring guinea pig and potatoes on the table. Descend into the eerie San Francisco Catacombs, Lima's largest. Once a burial site for more than 25,000 people, the catacombs were in use until 1808 and rediscovered in 1947. Today, they fascinate visitors with their macabre, yet intriguing arrangements of bones in geometric patterns.

After this memorable exploration of Lima's history, return to the hotel to enjoy the remainder of the day at leisure.

Day 3 Lima - Cusco

Today, at the appropriate time, be transferred to the airport in preparation for your flight to Cusco, the former capital of Inca Empire. Once arrived, you'll be met and transferred to the hotel. The rest of the day is yours to enjoy at leisure.

Set high in the Peruvian Andes at 3,399 metres above sea level, Cusco is both enchanting and historic. Take the chance to wander through the city's vibrant centre, where Inca foundations blend seamlessly with colonial architecture and European influences. From lively plazas to cobblestone streets steeped in history, Cusco offers a unique atmosphere that reflects the meeting of indigenous and Spanish cultures.

Day 4 Cusco City Tour

Today, embark on a half-day tour, visiting Cusco Cathedral, the Koricancha (Qorikancha), Sacsayhuaman and Tambomachay, for a deep insight into the city and its history.

First, see the wonderful Koricancha, located next to the Church of Santo Domingo. According to chroniclers, the Koricancha was the most sacred and important temple of the Inca Empire during the period immediately after the Spanish conquest. Its walls were once covered in gold alongside life-size gold and silver statues of plants and animals that decorated its rooms and corridors. Afterwards, visit the Cathedral of Cusco in the Plaza de Armas (Main Square). Built between 1560 and 1654 on the foundations

of an existing Inca temple, this spectacular cathedral houses many works of art from the Cusco school of painters, and its high altar and pulpit are covered in gold and silver reliefs.

The next stop is the imposing Inca fortress of Sacsayhuaman (3700 metres above sea level), which stands on a hill above Cusco. Here, you will see some of the best examples of Inca stonework and construction, including huge rocks carefully cut and fitted perfectly to form the walls. Then, visit the Qenqo Archaeological Complex (3580 metres above sea level), considered an Inca labyrinth with an altar with ritual motifs, and head to Tambomachay (3765 metres above sea level). The exact purpose of this site is unknown, but it may have functioned, at least in part, as an Inca spa.

After a morning of exploring, enjoy the remainder of the day at your own leisure.

Please note: Cusco is located in the Peruvian Andes at 3,399 metres above sea level, high altitude environments are classified as above 2500 metres above sea level. Please consult a medical professional if you have any concerns or to find out what preventative measures are available. Please refer to the 'Other important information' section for further information.

The Itinerary

Day 5 Sacred Valley of the Incas

After breakfast, depart the hotel and journey into the Sacred Valley of the Incas. Passing the impressive ruins of Saqsaywaman, cross the mountains before descending 450 metres to the fertile valley floor, where the Urubamba River winds its way past picturesque villages.

The first stop is Pisac, famous for its lively traditional market. Here, browse colourful stalls filled with local handicrafts, textiles and souvenirs. Continue to the Pisac ruins, perched high above the valley. During a guided tour, explore terraces, temples, tunnels and ceremonial altars, including the remarkable Intihuatana - the "hitching post of the sun."

Continue to Urubamba for lunch, before driving on to Ollantaytambo, one of the most important Inca sites. Once the royal estate of Emperor Pachacuti, Ollantaytambo is both a living town and an archaeological wonder. Explore the Temple of the Sun, admire the colossal stone blocks shaped with astonishing precision, and learn about the Inca's advanced agricultural terraces and sophisticated water systems.

Back in the town itself, see Inca-built water channels still flowing through the streets, as well as storage houses clinging to the mountainsides above. With its cobbled lanes and locals often dressed in traditional clothing, Ollantaytambo offers a rare glimpse of Andean life little changed over the centuries.

In the late afternoon, be transferred to the hotel in Urubamba, where the evening is at leisure.

Please note: You will need to prepare a smaller backpack (maximum 8 Kg) to take with you to Aguas Calientes (luggage cannot be taken on the train). Larger suitcases will be transferred to the hotel in Cusco for your return.

Overnight: Hotel Pakaritampu or similar

Meals included: Breakfast; Lunch

Day 6 Peru Expedition Train - Aguas Calientes

Today, transfer to the train station in Ollantaytambo and board the Peru Expedition Train for a spectacular journey to Aguas Calientes, the gateway to Machu Picchu.

As the train winds its way along the Urubamba River, be treated to breathtaking views of the Sacred Valley, with steep mountains rising dramatically on either side. The scenery shifts from fertile agricultural terraces and quaint Andean villages to lush cloud forest, where cascading waterfalls and dense greenery signal your approach to the edge of the Amazon. Nestled at the base of the mountains leading to Machu Picchu, Aguas Calientes blends traditional Andean life with a vibrant tourist scene. The largely pedestrianised town is filled with colourful markets, souvenir shops, cafes and restaurants, making it a lively place to explore on foot.

Framed by jungle-clad cliffs and with the Urubamba River rushing past, the setting is both dramatic and enchanting. The town is also famous for its natural hot springs, where you'll have time to unwind in the steaming pools after your journey (not included). You can also stroll through the bustling streets, browse local handicrafts, and soak up the atmosphere of this unique settlement. An early evening is recommended to rest and prepare for an early start tomorrow - a sunrise visit to the iconic Machu

Picchu. Alternatively, you can choose to supplement the activities on this day and participate in the Express Inca Trail Trek (additional expense).

Optional Tour: Express Inca Trail Trek

Physical ability: Active (please refer to the Other Important Information section for a description). Pick-up is early (approximately 06:00) to board the train for a 1.5-hour scenic ride to a point known as Kilometre 104, where you'll start your short Inca Trail trek. From here, hike for approximately four hours to the Inca site of Wiñay Wayna ("Forever Young"), approximately 2,680 metres above sea level. Built on a steep hillside overlooking the Urubamba River, this archaeological site has ten baths and numerous Inca buildings displaying high levels of Inca masonry. Wiñay Wayna was brought to international attention almost 30 years after the entire world knew about Machu Picchu, around 40 years after Machu Picchu was first discovered. Little is known about what Wiñay Wayna was originally built for, however there are theories that it was built as a spiritual destination or resting place before reaching Machu Picchu, where elders and royalty would cleanse themselves in the baths. Others believe that the site functioned as a kind of administrative centre to keep track of the amount of produce stored on-site.

After exploring Wiñay Wayna, continue your walk to Inti Punku (the Puerta del Sol, or The Sun's Gate). From here, take your first spectacular view of Machu Picchu. This site was believed to have once been the main entrance to Machu Picchu and was dedicated to Inti, the Inca Sun God. Then, head to Aguas Calientes for an afternoon at leisure. Please note: Due to the nature and duration of this tour, a moderate to active fitness

level is required for participation in this supplementary trek. The route includes uneven surfaces, steep ascents and descents, a mix of stairs and dirt trails, and high-altitude conditions.

The trek spans approximately 12 kilometres (6–8 hours) of walking, including stops for photos, lunch (included) and exploring. If you have any concerns about your ability to complete this trek, we recommend consulting your GP for guidance. Current pricing details can be found on the Important Information section.

Please note: Express Inca Trail Trek tickets are non-refundable and non-transferable. Once purchased, this optional activity cannot be refunded.

Optional Activity: Maras & Moray

Embark on a captivating half-day tour of Maras and Moray, beginning with a pickup from your Cusco hotel at approximately 09:00. The journey to Moray takes about 1.5 hours, offering breathtaking views of the Andean landscape along the way. Pass golden wheat fields, charming traditional villages, and majestic snow-capped mountains. Upon arrival at Moray, explore its fascinating amphitheatre-like terraced structures. These circular terraces, believed to have been an agricultural laboratory for the Incas, showcase their innovative techniques for optimising crop growth. It's a truly awe-inspiring site that highlights the ingenuity of the Inca Empire. Next, you'll visit Maras, located just 3 kilometres from Moray. Here, you'll marvel at the ancient salt evaporation ponds carved into the mountainside. More than 3,000 pools collect salty spring water that evaporates to leave

behind the renowned sal de Maras, a prized pink salt still harvested today. The view of these glistening ponds, resembling a blanket of snow or ice, is unforgettable. After exploring Maras, return to Cusco, with drop-off at your hotel included. Please see the current pricing in the Important Information section.

Optional Activity: Rainbow Mountain Trek

Set off before sunrise on a breathtaking full-day adventure to Rainbow Mountain (Vinicunca), one of Peru's most extraordinary natural wonders. Beginning with a 05:00 hotel pick-up from Cusco, drive for 2.5-hours southeast through the stunning Andean highlands to the village of Pitumarca. From here, continue to the Quesiuno trailhead, perched at an impressive 4,326 metres above sea level. The hike covers approximately 3.6 kilometres round-trip (1.8 kilometres each way) along a gentle path, making it one of the more accessible routes to Rainbow Mountain.

As you walk, take in sweeping vistas of snow-capped peaks, traditional Andean villages, and herds of alpacas and llamas grazing across the high plains. After around 1 hour and 20 minutes of walking, arrive at the summit of Rainbow Mountain, standing at 5,036 metres. Admire the incredible mineral-rich stripes that create the mountain's vibrant colours and enjoy panoramic views of the surrounding peaks. Your return trek takes approximately an 1 hour, followed by a well-earned lunch in the area. Afterwards, sit back and relax as you make the 2.5-hour drive back to Cusco, arriving at your hotel around 18:00, concluding an unforgettable day in the Andes. Please see the current pricing in the Important Information section.

The Itinerary

Please note: The Rainbow Mountain trek via Pitumarca requires a moderate to high level of fitness. The trail is relatively gentle compared to other routes, but the high altitude remains the main challenge. We recommend consulting with your GP prior to travel to assess your suitability for this excursion.

Optional Activity: Andean Cooking Class

Begin your experience with a 09:30 pickup from your hotel, heading to the vibrant San Pedro Market in Cusco. Known as one of the city's most fascinating markets, it bursts with colourful stalls offering fresh produce, meats, spices, handicrafts, and souvenirs. Before entering, meet your chef guide, who will explain the flow of the tour. Together, you'll wander through the market, learning about local ingredients, shopping tips, and Andean food traditions. Along the way, help to select the fresh produce that will be used later in your cooking class. Meeting stallholders and hearing their stories adds to the authenticity of the experience. After the market visit, head to a local restaurant, where you'll be provided with an apron and everything needed to cook. Under the chef's guidance, prepare a traditional Peruvian dish using seasonal, organic ingredients sourced from communities around Cusco. Staples such as potatoes and corn often feature, along with other highlights of Andean cuisine. Once the cooking is complete, the group will set the table and share the delicious dishes you've prepared together. After enjoying your meal, the activity concludes with time to return to your hotel (transportation not included). Please see the current pricing in the Important Information section.

Day 22 Antarctica

Land ho! Welcome to the icy wonderland of Antarctica. For the next five days, you'll be surrounded by vast icy waters, towering glaciers, and colossal icebergs that seem to stretch into infinity. The sheer scale and beauty of the landscape are almost otherworldly, and at times, you may find yourself simply taking a moment to absorb it all. The silence of this frozen world will soon be interrupted by the excited shouts of fellow passengers as they chance upon penguins, seals, and whales, offering a thrilling wildlife experience right before your eyes.

Antarctica's landscape and wildlife are constantly evolving with the seasons. During the late spring months of October and November, the snow-covered terrain appears even more pristine, providing the perfect backdrop for penguins as they court and build their nests. By December and January, the arrival of more whales marks the height of summer, coinciding with the hatching

of penguin chicks, often a heartwarming sight as the fluffy youngsters stumble through the snow. February and March offer the ultimate whale-watching opportunity when large pods are drawn to the rich feeding grounds of krill in Antarctic waters.

Once you arrive, the Expedition Team will take every opportunity to explore the environment with you. Whether you're cruising through the ice or taking Zodiac landings, you'll get up close and personal with this frozen paradise. Looking out for penguins from the ship is exhilarating, but the experience becomes even more awe-inspiring when you're on land, home to these charming creatures.

As you cruise in smaller explorer boats or take part in optional kayaking excursions, you might even encounter seals or whales right next to you. Be sure to keep your camera ready at all times to capture these unforgettable moments. To enrich your journey, the Expedition Team will share their expertise on a variety of fascinating topics, including the history of Antarctica, the biology of its unique wildlife, and the intriguing science of glaciology. Every day will bring new discoveries and unforgettable experiences as you explore this awe-inspiring continent.

34-DAY CRUISE & TOUR PACKAGE | SOUTH AMERICA & ANTARCTICA EXPEDITION

The Itinerary

In the true style of the early explorers, venture out at night for a once-in-a-lifetime experience to go camping in the Antarctic night. Although Amundsen, Scott and Nordenskjold had different equipment, they used the best gear available at the time. So do you. This activity features top-of-the-line camping equipment that meets Antarctic standards for camping on snow and ice.

This activity may have limited availability. If space becomes limited, participants will be chosen via a lottery-based lucky draw. Imagine yourself sleeping under the Antarctic sky with little more than the thin wall of a tent separating you from the elements. In the true style of the early explorers, you venture out at night for this once-in-a-lifetime chance to feel like a polar explorer.

The adventure starts with a pre-camp briefing by the experienced expedition staff who accompany you on the activity. The camping is set up after dinner, with guests participating from beginning to end. If you have never pitched a tent before, this is your chance. After the camp is set up, you can either go to bed or sit outside and marvel at the stillness, or listen to penguins in the distance.

Depending on the landing site, you may take short walks to nearby viewpoints and visit penguin colonies on the bright Antarctic night. If you like, wake up early, climb out of your tent and watch the sunrise. In the morning hours, take down the camp, and the boats pick you up for the return trip to the ship.

Back on board, enjoy a special breakfast and debrief the experience. As an IAATO member, HX Expeditions adheres to all guidelines associated with onshore overnight stays in Antarctica.

They leave nothing behind and remove all traces of their presence to protect wildlife and the fragile environment. Join them for this unique and unforgettable experience!

Please note: This is an after dinner and before breakfast activity offered only where the route, weather and ice/snow conditions allow.

Optional Activity: Snowshoeing in Antarctica

Only bookable on board.

Duration: 2 hours

Feel the spirit of the early Antarctic explorers. Join them for a walk on the wild side with snowshoes. Climb hills, cross glittering white plains, and untouched landscape. Here, few humans have set foot. The experienced Expedition Team will guide you to places with awe-inspiring views. You might observe penguin colonies or even see whales swimming in the sea from above.

Please note: Subject to snow and weather conditions, a good level of fitness is essential, walking mostly on snow and icy terrain, uphill and downhill.

Optional Activity: Kayaking Adventure in Antarctica

Only bookable on board.

Duration: 3 hours

Merge with nature on an exceptional Antarctic sea kayaking adventure. Explore nature and wildlife up close as you kayak along awe-inspiring icebergs and glaciers. Paddling through crystal-clear water, search for seals, penguins and whales. The experienced Expedition Team will take you to stunning Antarctic areas with high chances of encountering wildlife.

TOUR GUIDE VS. TOUR LEADER

Tour Guide:

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on the history, art, architecture and culture of the city/village/attraction where they are guiding the tour. The guide meets the group at the required place and leaves it at the end of the tour; they do not travel with the group.

Tour Leader:

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides at each stop. A tour leader may provide general guidance around a city or village and offer information on the place visited on the bus. However, they are not required to have specific art, architecture, or historical knowledge. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and, if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when required to enhance the experience of the destination featured.

Seasons in Antarctica

Antarctica only has two seasons which are summer and winter. Because it's located in the southern hemisphere, Antarctica's summer is from October to February.

During this time, the sun is almost always in the sky. Days rapidly get longer there in

summer, until, eventually, the sun doesn't set at all. This phenomenon is called the Midnight Sun. Although there are multiple places in the northern hemisphere that experience this perpetual sunlight during half of the year, Antarctica is the only southern location where it can be seen. January is the warmest month in Antarctica, during which average temperatures climb all the way up to 0 degrees in the Antarctic Peninsula. However, the average temperature ranges from -10 degrees celsius to -60 degrees, depending on how far into the continent you travel.

If anyone is in Antarctica once winter comes, they're staying until summer returns. Flights and ships cease travel to and from Antarctica once the weather starts to turn, as conditions become too treacherous for travel. Typically, researchers are the only people who brave the Antarctic night. This is a valuable time for astronomers, who can use complete darkness to get spectacular views of the universe. Climatologists are also busy during this time of year tracking and comparing the temperatures on and below the continent's surface.

Late Summer Cruising In Antarctica

February to March

If you choose to go on an Antarctica cruise in February or March, you will be seeing the continent during its late summer period. This provides a variety of benefits, including the ability to explore more thoroughly as the ice melts and breaks apart, allowing for a high chance of seeing whales on the Peninsula.

What Whales Might You See?

Late summer is the best time to see whales in Antarctica. It is most common to see Humpback whales, minke whales and killer whales, though it's possible to see many other species as well. These can include blue whales, fin whales, sei whales, southern right whales and sperm whales.

What About Penguins?

By March, those adorable penguin chicks

are growing up. They begin to fledge and grow into their adult feathers, while their parents may already have gone out to sea to begin to prepare for their own moulting season.

Why Go During This Season?

If you're an explorer who wants to see as much of Antarctica as possible, choose a late-summer cruise. As the polar ice melts, you'll have access to points much farther south than you would during other travel seasons. You will certainly see some wildlife, as well, and will get to know the untouched majesty of Antarctica in this particular form.

High Altitude Sickness

Altitude sickness can occur at high elevations when the body receives less oxygen. It can affect anyone, regardless of age or fitness, with symptoms such as headache, nausea, dizziness, fatigue, and shortness of breath.

Tips to help prevent altitude sickness:

- Stay well hydrated and eat light, high-carbohydrate meals
 - Avoid overexertion during the first 24–48 hours at high altitudes
 - Limit alcohol and avoid smoking
 - Consult your healthcare professional about preventive medications or your suitability for travel to high-altitude areas
- Our local tour providers are trained in first aid, including high-altitude care, and have oxygen available for guests if needed. Medications are also readily available in Cusco.

Please note: Inoculations may be required to enter the country visited, along with re-entry into Australia after your visit. It is your responsibility to consult with your travel doctor for up-to-date medical travel information well before departure.

Yellow Fever:

A valid international certificate of vaccination against Yellow Fever is required in many countries. You may need to present this on arrival at the airport or border crossing. Some countries will refuse entry if you are unable to present your

certificate. It's also common for your home country to request a Yellow Fever certificate upon arrival.

You must check with your doctor well before leaving home about the Yellow Fever requirements for the countries you'll be visiting.

Sightseeing:

Please note: If entry to a site is affected by changes in operating hours or public holiday closures, your itinerary, where possible, may be adjusted, or a similar activity will be offered in its place (subject to availability).

Shopping:

Shopping overseas can be a daunting and confusing experience, especially when there is a language barrier. Please be very cautious when foreign currencies and prices are involved. If paying by credit card, please pay close attention to the amount you are being charged and keep all your receipts.

Do not make any purchases you are not comfortable with or feel pressured into. If you are uncertain or need assistance with the language barrier, please seek assistance from your Tour Guide/Leader. Please refer to our [Terms and Conditions](#) regarding shopping for further information.
